Otto sat in the chair provided, bound to it by steel chains. He stared defiantly at the hovering AI. Overlord. The bane of his life, but the creator of it as well. His father.

Otto had been caught by Overlord's minions and brought to this prison. Now Overlord was trying to convince him to join the even darker side. Defiance burned in Otto's eyes.

"Will you join me if I give you a Maserati?" asked Overlord.

"No," replied Otto.

"Will you join me if I allow you to rule the world with me?" asked Overlord.

"No," Otto said adamantly.

"Rule the galaxy?" asked Overlord.

"Nah," Otto answered.

"How about the universe?" asked Overlord.

"Nope," answered Otto.

"Well, what will you join me for?" demanded Overlord.

Otto visualised what he wanted in his mind. Coloured candy all the colours of the rainbow. The taste of rainbows. A holy sweet. Nothing tasted better. Memories from H.I.V.E, when a certain ninja had taken said candy, flooded into Otto's head.

"What I want..."

"Yes?" enquired Overlord.

"Is-"

"Yes! Yes!" Overlord asked.

"Skittles," finished Otto," Then I shall join you."

A/N: A one-shot on Skittles! Taste the rainbow!
